

Report on World Day for Safety & Health at Work (28th April 2025)

“World day for safety & health at work” was observed at ESIC Model Hospital, Peenya on 28th April 2025 by Occupational Therapy under the aegis of Orthopedics department in collaboration with nursing staff under the able guidance of Medical Superintendent Dr. Mridula A M.

Occupational Therapist Mr. Surinder Pal Singh did an informative presentation about occupational hazards in healthcare settings. Basic principles of Ergonomics, and strategies to minimize occurrence of Musculoskeletal Disorders among healthcare workers were discussed.

Many staff discussed their real-life incidents of occupational hazards during discussions. Medical superintendent Dr. Mridula A M acknowledged that awareness regarding occupational hazards and its prevention is very crucial not only for the well-being of healthcare professionals but also for quality of patient care.
